## Vantaggi del Trading nel mercato CFD

24 ore trading

Il Forex è disponibile 24/5 e include anche indici e materie prime

Elevata leva finanziaria

Hai la possibilità di fare enormi profitti con un capitale limitato

Forte Liquidità

La dimensione pura del mercato lo rende difficile da manipolare, il che lo rende un mercato equo per scambiarlo

Può negoziare i mercati in più direzioni

I trader possono sia andare long che andare short e prendere profitti in entrambe le direzioni

I 4 Maggiori mercati finanziari

- Nel 2020, ha cercato una sfida più grande e ha deciso di essere coinvolto nello sviluppo del mercato, dove ora è responsabile dell'espansione generale del business in tutta l'Asia

## Keith Walker

CRO/CMDO FVP Trade

## Dr. David Moche

Founder di Qfinity Labs

## Head of Research

Laureato al MIT Massachusetts Institute di Tecnologia

- Ex consigliere senior dell'Istituto nazionale israeliano di costruzione quantistica.
- Nel 2001, si è unito al team di Stefan Woerner, il capo globale del dipartimento di finanza quantistica di IBM
- In precedenza ha lavorato insieme a Marco Pictoria di JP Morgan allo sviluppo di algoritmi quantistici utilizzando la simulazione Monte Carlo
- Autore del libro "Application of Quantum Computing in Finance"

Come fa l'azienda a battere il mercato?

Qfinity Labs

Quantum F-Series  
Algoritmo di trading

Rendimenti continui, basso rischio, affidabile.

Quantum Computing

# Confronto tra computer quantistici e classici

Quantum  
Computers

Classical  
Computers

Qfini

La velocità media di calcolo dei computer quantistici è 35.500 volte più veloce dei computer ordinari.

- Alcuni problemi matematici, che richiedono 100 anni per essere risolti dai computer normali, possono essere calcolati in 100 secondi dai computer quantistici.

- I computer ordinari usano 0 e 1 per immagazzinare informazioni. I computer quantistici possono avere 0 e 1 allo stesso tempo, dandogli un potenziale di memorizzazione e di calcolo estremamente impressionante.

# Chi usa Quantum?

## Giganti del Tech

Alibaba Group  
阿里巴巴集团

HUAWEI

## Società Finanziarie

BARCLAYS

citibank

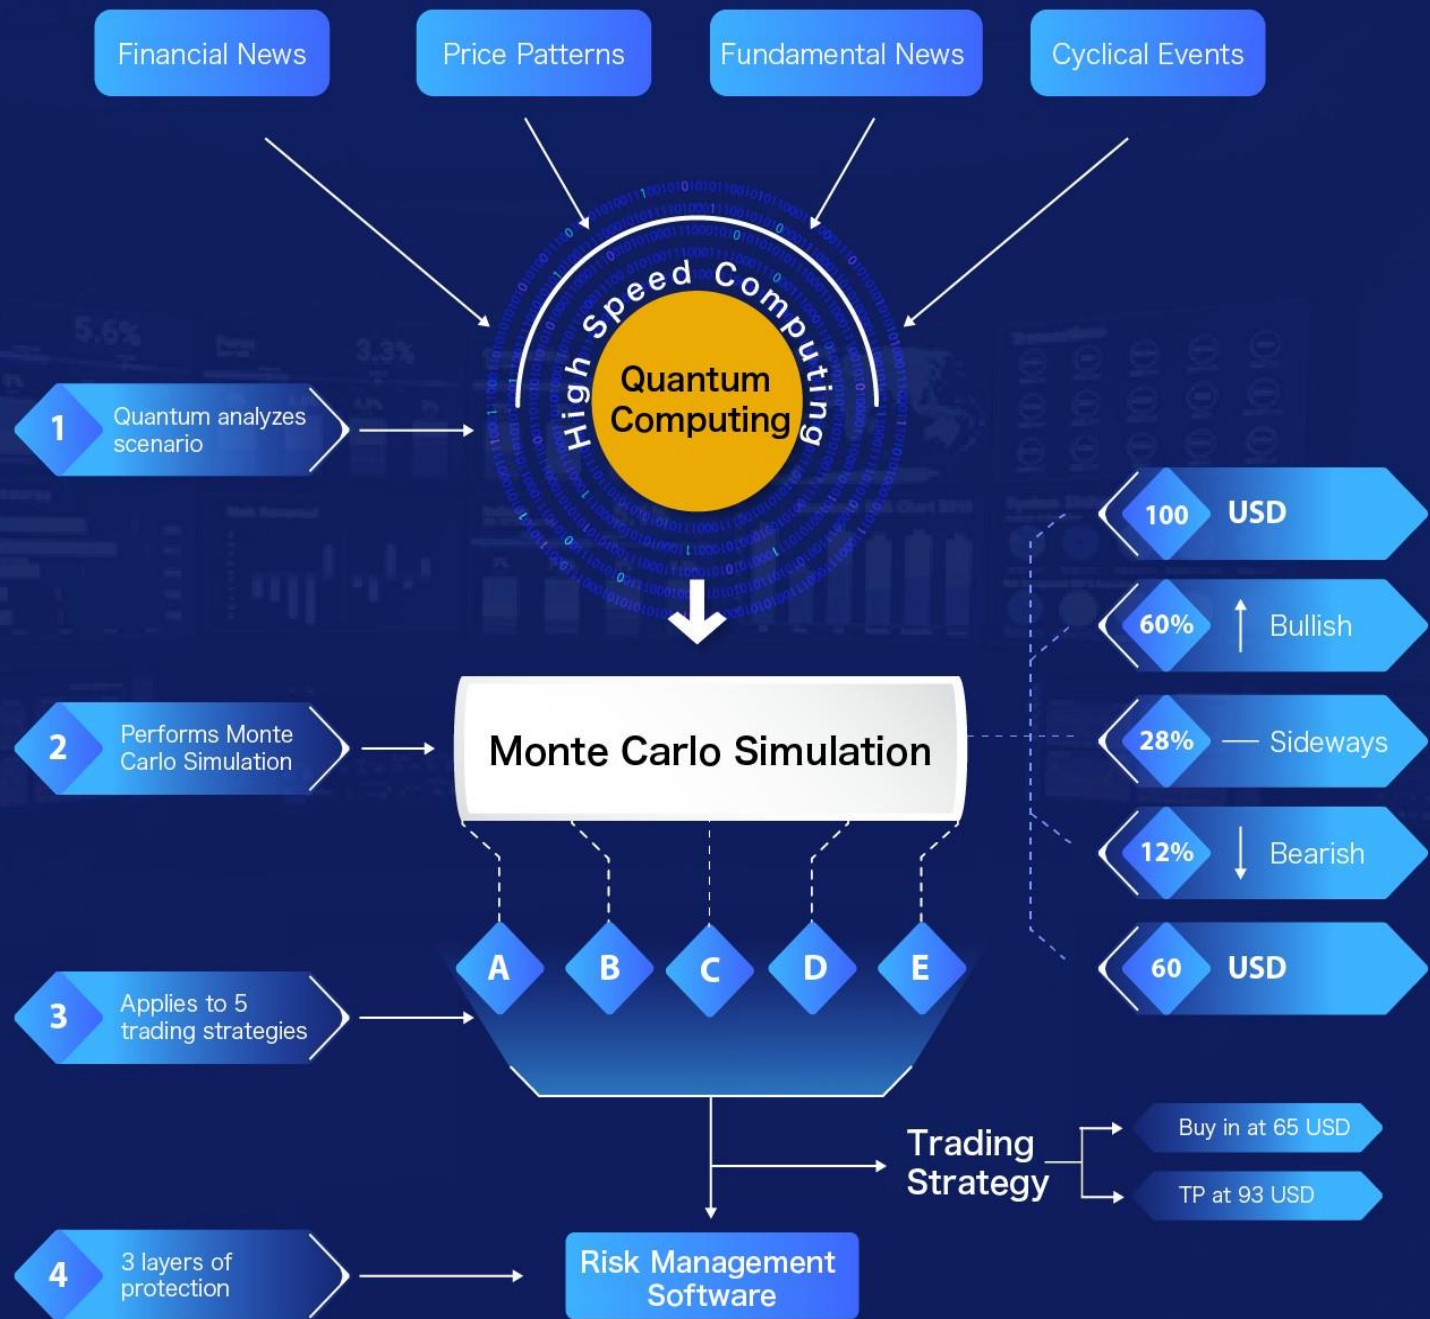

CaixaBank

J.P.Morgan

L'industria finanziaria in questo momento si è trasformata molto con Quantum.

## Come fa F1 a generare Profitti?

- Utilizzare i computer quantistici per leggere enormi quantità di dati (fondamentali e tecnici)
- Eseguire il calcolo della simulazione stocastica Monte Carlo
- Calcolare la prossima mossa del mercato con la massima probabilità.
- Usa 5 diverse strategie di trading per generare un rendimento di portafoglio altamente diversificato
- L'intelligenza artificiale piazza gli ordini e fa arbitraggio di mercato per i clienti.

Metodo di simulazione stocastica affidabile con una lunga storicità

È già stato utilizzato in molti settori che includono l'economia finanziaria, le previsioni del tempo, l'apprendimento automatico, ecc.

La potenza di calcolo quantistica può realizzare appieno il potenziale di Monte Carlo (potenza di calcolo)

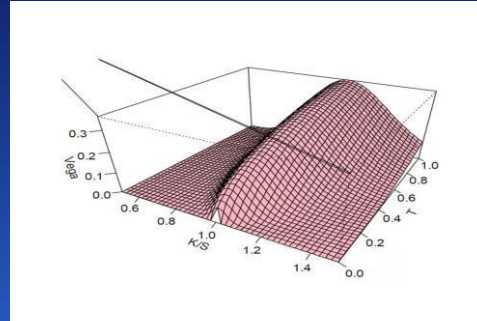

In grado di calcolare previsioni di mercato ad alta probabilità in pochi secondi

## 4 Fattori chiave della simulazione Monte Carlo

# 5 Strategie usate nel nostro Portfolio di Trading

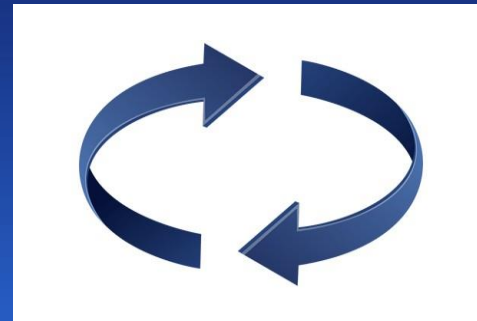

Strategia 'Mean Reversal'

Analisi del volume degli spread

Strategia dei trend di tendenza

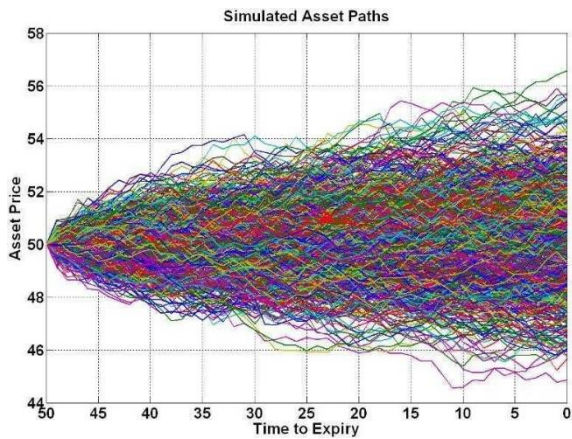

Reverse Trading

Strategia dei Trend invertiti

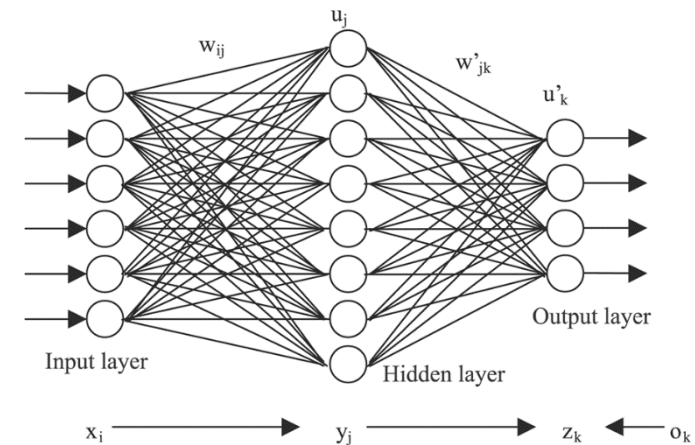

# La nostra tecnologia superiore ci dà un vantaggio ineguagliabile sui nostri concorrenti

## 2019 The Entrepreneur JFEX Awards Best FX Prime Broker of the Year

ISLE OF MAN, January 27, 2021 FVP Trade is delighted to announce that it has been awarded the Entrepreneur JFEX Award for Best FX Prime Broker of the Year 2019. The Entrepreneur JFEX Awards 2019, which were held this year in Jordan on the 18th of September, celebrates excellence in the financial industry by giving awards to the best performers by the public.

FVP Trade was recognised at the awards for its commitment to provide clients with unparalleled trading experience. Being an established company in the industry for many years, FVP Trade has learnt that the combination of pricing, execution speed,

## FVP Trade Raises Fresh Funds from Deutsche Capital Group, Primed for Global Expansion

July 03 2020

Deutsche Capital Group today announced it has entered into a definitive agreement to invest in fast-growing, multiple award-winning retail CFD brokerage FVP Trade via a deal made with its holdings company FVP Holdings.

Under the terms of the agreement, Deutsche Capital Group will receive convertible preferred shares that can be exercised and converted into ordinary shares at a future pre-determined date.

The deal was confirmed after a comprehensive strategic alternatives review process taken by Deutsche Capital Group's Board of Directors. The agreement has currently been approved by Deutsche Capital Group's Board of Directors.

## FVP Trade Launches Their Inaugural Online Global Summit

LONDON, UNITED KINGDOM, May 31, 2021 /EINPresswire.com/ -- Multiple award-winning CFD Broker, FVP Trade, continued its rapid and aggressive expansion across the Asia Pacific region, by launching an online summit on Saturday the 22nd of May 2021.

At one point, the event was very well attended, saw numbers peaking at around 3000 guests online, and saw new and already established offices from around the region taking part.

At the event, we were also treated to the Grand opening of two new offices in the Chinese cities of Changsha and Xiamen. Only two months from their "soft launch" back in March, the company now boasts an incredible array of offices across China and surrounding countries, as it targets 50 offices by the end of 2021.

“Asia is an important new region for us. The economy is highly developed and embodies entrepreneurship and growth. We very much look forward to doing business across the region”

The guest speakers were Samuel Chow, the Deputy Regional Manager, and Keith Walker, the former Head of Risk, who is now heading up the Asian expansion as the Chief Marketing Development Officer.

During his speech, Mr Walker mentioned his vision of opening a minimum of 50 offices throughout the
